SteamBase TECHNOLOGY

"Steam Base" Technology combines steam with traditional cooking functions utilizing the evaporation of the water inside the oven cavity.

Steam cooking reduces the loss of moisture in meat-type foods, while the inside is more juicy and the outside is more crispy, while the pastry makes the foods more puffy, crispy and bulky on the outside.

REMOVABLE INNER GLASS AND OVEN DOOR

Removable Inner Glass

Easy to remove the inner glass without any tools.

Easy to remove oven door

It is easy removing the oven door by flipping up the hinge latches.

Easy Clean

Advanced easy to clean coating on inner door glass. A quick wipe with a damp microfiber and a few cleaning agent is enough.

EASY TO CLEAN

Steam Cleaning

With this technology, dried food leftovers inside the oven cavity are softened with vapor. To perform *Steam Cleaning* add 300ml. of water into water tank. After that, Steam Cleaning is activated to create vapor inside oven cavity which will soften dried food stains.

Easy to Clean Enamel (ETC)

This MEX built-in oven has special formula of Easy to Clean Enamel (ETC) to prevent dirt sticking to the inner walls. It is easier to clean.
